**RESPONSE TO NOTICE TO FILE CORRECTED APPLICATION PAPERS  
NOTICE OF ALLOWANCE MAILED**

Sir:

The following is in response to the Notice to File Corrected Application Papers - Notice of Allowance Mailed, dated March 28, 2007, in the above referenced application. As per the Notice, a copy of the Notice is enclosed herewith.

The Identification of Drawing Deficiencies included with the above-referenced Notice indicates that the drawing figures are objectionable because of the foreign language labels. The above-referenced Notice requested submission of corrected formal drawing figures.

In response, enclosed please find 58 sheets of corrected drawing figures (Figs. 1-58). These sheets replace the previously submitted sheets including Figs. 1-58.

Applicants would note that these 58 sheets of formal drawing figures were previously submitted by Applicants with the originally filed application. Confirmation of receipt of these drawing figures at the USPTO is acknowledged by the attached postcard that was stamped by the USPTO mailroom. Based on Applicants file, the submitted formal drawing figures were prepared to replace the foreign language labels with English language labels.

As it appears that the previously submitted formal drawing figures with the English labels have become lost at the USPTO, Applicants are submitting the enclosed drawing figures to correct a deficiency in the USPTO records and so that the subject application can pass to grant.

As English language drawing figures were previously submitted by Applicants and receipt of same was confirmed by the USPTO mailroom; Applicants respectfully submit that any delay in issuance of the application is the fault of the USPTO, not Applicants. Thus, Applicants respectfully submit that any previously calculated patent term adjustment (PTA) as calculated by the USPTO should not be reduced because of this submission and it also is respectfully requested that the appropriate procedures be taken to assure that any previously calculated PTA is not so reduced by this Response to the above-referenced Notice.

As the figures were revised to replace foreign language label with corresponding English language labels, Applicants submit that no new matter is being introduced. Thus, entry of the attached formal drawing figures into the subject application is respectfully requested.

It is respectfully submitted that the subject application remains in a condition for allowance.

Applicants believe that additional fees are not required for consideration of the within Response. However, if for any reason a fee is required, a fee paid is inadequate or credit is owed for
